Jan showed a little further improvement.

English cables, however, after epening about as expected, proved disappolating, and, in addition to this the recent advance had maturally afforded a very considerable profit to the longs. At the best level of this morning these profits proved attractive and an essier tendency became apparent, under which values sarged down some 2 to 6 points on the list generally, while January sold off 14 points under feat of 'matices,' closing at \$500. The market at the finish was steady, with total sales settinated at 250,000 baies. The declins in January was the feature and was thought to indicate the final covering of the short interest in that option.

Cargill & Richardson's Letter.

Houston, Texas, January 29. - Cotton suffered a slight reaction today in American markets, due to the constant strain of tour realising. Some of the easiness was atterms were not entirely satisfactory to some of the large foreign powers, but the strength in the Liverpool market, 4 points higher than yesterday, with another large day's business on the spot, 12,900 Laws, is not indicative to any fear of noticest com-Directions over the South American dispute. Our markets had a firm opening with a moderately stendy undertone all lay, with long cotton readily absorbed by I saids in the markets showing that the large specialry in the markets showing that the large specialry in the markets still believe in higher prices.
